PHILADELPHIA

Seed Gardens at FORDHOOK FARMS, Doylestown, Pa.

TERMS OF SALE.

PHILADELPHIA, January 14, 1904.

All bills purchased after this date will be charged at the prices quoted herein,—unless *special offers* are made by letter or telegram and *referred to* in the order. Not less than ten pounds of one variety will be invoiced at the rates per hundred pounds.

SEALED PACKAGES.—We make no charge for sealing **pounds, pecks, or bushels**, but, at the low bulk prices quoted herein, we charge for putting up in smaller sealed packages, as follows:

In Ounces.—One cent per ounce; 50 cents per 100 ounces.

In Quarter-Pounds, Pints, and Quarts.—Two cents for each package.

In Two-Quarts and Four-Quarts.—A charge of three cents per package.

TERMS OF CREDIT.—To regular customers and well-known houses of established credit, all bills bought from this Catalogue are due June 1st, without regard to date of purchase. *All accounts are subject to sight draft on June 10th if payment is not received previously by mail.* Goods purchased after June 1st are payable on October 1st and subject to sight draft.

 Bills purchased on *special quotations*, made by letter or telegram, are due sixty days from date of invoice, or subject to a discount of one and a half per cent. if paid within ten days.

 **Grass and Clover Seeds, Onion Sets, and Seed Potatoes** in quantity are invariably **net Cash**.

 Unknown correspondents desiring credit are requested to give satisfactory reference in Philadelphia or New York.

Terms for Cash.—We allow a discount of **One Per Cent. a month** on all bills (at Catalogue prices) paid before June 1st.

Shipping Instructions should be sent with each order, and will be followed carefully. Otherwise we shall use our best judgment as to route.

The Prices Quoted are those ruling at this date. We expect to adhere to them through the spring, except in cases where important changes in the market show that we can reduce our prices, when we shall be governed by the market. **10 lbs. and over will be supplied at the rates per 100 lbs.;** $\frac{1}{2}$ lb and $\frac{1}{4}$ bushel at the pound and bushel rates; but *smaller quantities will be subject to a higher charge.*

Seeds by Mail.—When desired, small packages will be forwarded by mail at 8 cts. per pound, 10 cts. per quart on corn, 15 cts. per quart on beans and peas, extra.

NO CHARGE for Packing or Cartage.—Bags and boxes are *Charged at Cost*. After delivering to forwarders in **good order** (as shown by Bill of Lading) our responsibility ceases. **Insurance** effected only when so directed.

WE DO NOT COMMISSION SEEDS.—In response to hundreds of inquiries each year, we would state that we **positively decline to send out any Seeds on Commission**. Dealers handling seeds in packets will be supplied on liberal terms, and by ordering judiciously, those left over can be destroyed, and the business yet be more profitable and satisfactory than the handling of commission seeds.

Discounts TO THE TRADE From our Retail Prices.

In our retail Catalogue—**BURPEE'S FARM ANNUAL FOR 1904**—are many varieties of seed for which frequently other Seedsmen receive retail orders. We supply

**All Seeds in Packets at 50 Per Cent. Discount.
500 Packets or more at 60 Per Cent. Discount.**

Small quantities from our retail Catalogue, which cannot be invoiced at the low pound or bushel prices quoted herein, are charged at the following rates of discount from retail prices:

Seeds by the Ounce,	40 per cent. discount.
Seeds by the Quart or Pint,	33 $\frac{1}{2}$ " "
Seeds in Collections,	40 " "
Potatoes by the Pound,	40 " "
Bulbs in Collections,	20 " "
Roses and other Plants,	20 " "
BOOKS on Garden Topics,	40 " "

At the above liberal rates of discount the goods travel at expense of purchaser, and on seeds, etc., sent by mail, the cost of postage will be added to the invoice.

Cable Address, BURPEE, Philadelphia.

THE BURPEE BUILDING

Nos. 475 and 477 North Fifth Street
and Nos. 476 and 478 York Avenue

THE BURPEE QUALITY IN SEEDS is quite different from that of usual commercial grades. Burpee's seeds cost a little more, but they are worth much more!

Intelligent planters everywhere are learning to appreciate the difference,—that always "the best is the cheapest,"—to such an extent that we have been obliged not only to grow larger areas, but also to make still further improvements in our system of handling orders to keep abreast of the increasing demand.

As heretofore, we do not attempt to compete MERELY IN PRICE. Our aim is to EXCEL IN QUALITY, and the fact that in spite of fierce competition we still maintain the largest mail-order seed trade in the world is indisputable evidence that—

**Burpee's Seeds Grow and
are the Best that Grow!**

We strive constantly to improve, and are sure that **BURPEE'S SEEDS FOR 1904** are better than ever offered before! It would require many pages to tell of the exceptional care exercised in selection. That this careful work is appreciated, however, is shown from the fact that our business is growing steadily.

To Dealers in Seeds:

The remarks above are reprinted *verbatim* from the Introduction of **BURPEE'S FARM ANNUAL FOR 1904**,—a copy of which has already been mailed to you. Our purpose in repeating here is to emphasize the fact that we supply identically the same stocks to merchants who order from us. The fact that,—without any travelers on the road,—our wholesale trade is increasing even more rapidly than our retail business, shows that more and more dealers are constantly learning that *it pays* to make competition on *quality*, rather than on price. It is not difficult to sell **BURPEE'S SEEDS**, as they are recognized everywhere as being uniformly of the Highest Grade.

The prices in this catalogue have been carefully fixed on the basis of actual values, yet, as we employ no travelers we are always prompt to quote special prices by mail or telegram. Please write or wire us if you are offered first-class seeds of equal quality, by reputable seedsmen anywhere, at lower prices.

With hearty thanks for your courtesies during past years, and trusting that you may continue to favor us with your orders, we remain,

Yours truly,

Philadelphia,

January 14, 1904.

SEED GARDENS and Trial Grounds at **FORDHOOK FARMS**, Doylestown, Pa.

TELEGRAPHIC CIPHER FOR PRICES.

The cipher or code-words given on this page are principally for our use in making quotations. For example :

Dab Cefalu Carding Davit, Tokay Pallium Densely, would mean : In reply to your telegram, we quote for immediate acceptance upon our usual terms for special quotations, provided unsold upon receipt of your order, one hundred pounds BURPEE'S SUREHEAD CABBAGE at \$1.00 per pound, two hundred bushels BURPEE'S BEST EXTRA EARLY PEAS at \$4.25 per bushel. These code-words can be used also if, when placing a telegraphic order, you wish to specify price quoted. For example :

Dare Calicut Chanter Dastard, Mocha Bib Deterge, meaning : Ship at once by freight, as per special quotations, seventy pounds CHANTENAY CARROT at 50 cts. per pound, sixteen bushels BURPEE'S BUSH LIMA BEANS at \$5.75 per bushel.

By exercising ordinary care in preparing the telegram you can save time and money by the use of our code system. When possible, telegraphic orders are filled and shipped the same day they are received.

For Code-words for Quantities, Orders, etc., see next two pages.

Telegraphic Cipher (or Cable Code)

FOR WEIGHTS AND MEASURES.

The telegraphic cipher word for quantities must always precede the cipher words for seed, but if the same quantity of several varieties is ordered, the cipher word meaning that quantity need be placed only before the first. For example:

Arad Navy, Purity, Benares, Calliope, Chalice, Malmo Balcony, would mean, ship at once, cheapest route, ten pounds each **NAVY BLUE** and **SADIE BURPEE SWEET PEAS** (white-seeded), twenty-five pounds each **BURPEE'S ALLHEAD EARLY CABBAGE** and **OXHEART CARROT**, and ten bushels **BURPEE'S STRINGLESS GREEN-POD BEANS**.

Our customers will find this a very inexpensive way of wiring their orders, but we must caution them that care be taken in writing out the messages, as we cannot hold ourselves responsible for errors arising from incomplete messages or incorrect translation.

IMPORTANT.—This telegraphic cipher must be used **ONLY** on orders by telegraph or cable, and never in written orders sent by mail.

Our Cable Address is **BURPEE, Philadelphia.**

BURPEE, Philadelphia,

Is Our Registered Cable Address.

All foreign customers are requested to advise us of their **shortest cable address**. Customers in America who wish to telegraph will also, occasionally, find it useful to use the following additional code.  Please note the **code-words** below that would be used in our **reply**, either by cable or telegram.

FOR OFFERS AND INQUIRIES.

CODE-WORD.	TRANSLATION.
<i>Daubling</i>	Telegraph your lowest prices for
<i>Dean</i>	Mail your lowest prices for
<i>Decoy</i>	Mail your lowest prices for, and send samples.
<i>Defend</i>	Telegraph when goods can be shipped.
<i>Defender</i>	Advise immediately by mail how soon goods will be shipped.
<i>Deform</i>	Can you offer for acceptance by mail
<i>Deject</i>	Can you offer any? If so, telegraph prices.
<i>Delude</i>	Can you offer any? If so, mail prices.
<i>Derange</i>	Telegraph quantities you can offer of following, with prices.
<i>Descend</i>	State by letter quantities you can offer of following, with prices.

Code-words that will be used in OUR ANSWERS.

<i>Dab</i>	{ In reply to your telegram, we quote for immediate acceptance upon our usual terms for special quotations the varieties named below, provided they are unsold upon receipt of your order.
<i>Dacite</i>	We accept your order for
<i>Dagger</i>	We accept your order for, and shall ship at once.
<i>Dainty</i>	We accept your order for, and shall ship as directed.
<i>Damsel</i>	We offer you for immediate acceptance, subject to being unsold.
<i>Dance</i>	We accept your offer and shall ship as directed.
<i>Dapper</i>	Cannot accept your order for
<i>Dapple</i>	{ Part of your order went forward by freight on expect to ship balance
<i>Darby</i>	{ Part of your order went forward by express on expect to ship balance
<i>Dardanus</i>	Please repeat your message, it is not clear.

Code for positive ORDERS.

<i>Dargie</i>	Send immediately by <i>express</i> following seeds at catalogue prices.
<i>Darken</i>	Send immediately by <i>freight</i> following seeds at catalogue prices.
<i>Darnel</i>	Send immediately by <i>mail</i> following seeds at catalogue prices.
<i>Dare</i>	Send immediately the following by <i>freight</i> , per special quotations.
<i>Dared</i>	Send immediately by <i>express</i> the following, per special quotations.
<i>Darling</i>	Send immediately by <i>mail</i> the following, per special quotations.
<i>Dasher</i>	{ Send at once following ; let the other seeds follow as quickly as possible.
<i>Dashing</i>	{ Have you shipped our order? If not, increase if possible our order for to pounds (bushels).
<i>Datary</i>	{ Send immediately by express. Let balance of order follow by freight.
<i>Dation</i>	Duplicate our last order.

Foreign Orders are invoiced at the **lowest prices** prevailing upon **date of shipment**. In no case (except on Potatoes and farm seeds, subject to fluctuations) will prices be charged higher than quoted herein, while in **case of decline** in any lines our foreign customers (who, of course, cannot be kept so well posted in the value of American seeds) will receive full advantage of any **lower prices** that we may be quoting. Our export trade is increasing every year, and dealers, even in the most distant countries, who intrust their orders to us, can rely upon the same close attention and equally the **most favorable prices** that we are making at the same time, for the same quality and quantity, to American seedsmen.

Best Seeds that Grow for 1904,

Tested and Proved at our Fordhook Farms.

THIS PACKAGE (IF UNBROKEN) CONTAINS ONE OUNCE OF

Here follows the same "electrotyped" label as printed on our packet bags,—giving in full the name of the variety, and in case of the more important Vegetables and Flowers, also an illustration, description, and directions for culture. Every package bears our full firm name, while the more than one hundred varieties of Vegetables which have been introduced by us are marked also with our registered trade-mark monogram.

Every ounce-package is **dated** as above.

Packets, although not dated (because the electrotypes generally require the entire front of the bag), are all filled with the same choice quality of the **Best Seeds that Grow for 1904.**

W. ATLEE BURPEE & CO., Seed Growers.

Seeds of the best quality cost very much more to produce than do seeds of the ordinary commercial grade. And yet many merchants, having little or no knowledge of the value of **High-class Seeds**, purchase their supplies wherever they can be obtained the cheapest. It was brought to our notice that some merchants would buy a bill of seeds from us, obtain copies of our catalogues and show-cards, and then purchase a portion of their supplies from other seedsmen, who, growing "*cheap seeds*," could sell at much lower prices. In many cases planters who purchased from their local merchants, thinking that they were obtaining **BURPEE'S SEEDS**, got only a few of our seeds (perhaps in packets), and often the seeds bought by weight or measure were of inferior quality, falsely sold on our reputation, but for which we were not in any way responsible.

This deception was brought so prominently to our attention six years ago that we debated seriously whether we should not decline altogether to sell **BURPEE'S SEEDS** at wholesale. Further consideration, however, showed us that this would hardly be fair to the honorable merchants who had been handling our seeds exclusively for years. Therefore we announced that—

Hereafter we will sell Burpee's
Seeds **ONLY** in sealed packages.

Packets and ounces, in *Water-tight Manilla Bags*, are sealed, and bear, plainly printed, either **our Name or Registered Trade-mark Monogram**, protected by United States Letters Patent. Quarter-pounds, pounds, pints, and quarts, in paper bags, have pasted across the top a **green label**, as below :

BURPEE'S SEEDS THAT GROW

FOR 1904—"BEST BY TEST"

Genuine Only if this Seal is Unbroken

SEEDS IN BULK,—that is, Peas, Beans, etc., by the peck or bushel, and quantities of small seeds in bags, will have **each sack sealed with our Trade Mark on a leaden seal.**

This plan will be a protection to honest merchants from competition with other seeds falsely claimed to be **BURPEE'S SEEDS**, and at the same time will be a guarantee to the purchaser.

**LARGE DEALERS WHO SELL ON THEIR OWN REPUTATION
CAN BUY SEEDS IN BULK FROM US, AS HERETOFORE.**

While every sack is sealed, the contents can be handled as desired,—except that they must not be sold as **BURPEE'S SEEDS**, unless in original packages.

BURPEE'S BOX OF FLOWER SEEDS.

This box, which is fully described on page 62, contains 200 packets of the most popular quick-selling varieties, all of the best quality.

BURPEE'S NEW CABINET OF VEGETABLE SEEDS.

This cabinet is an ornament to any store. A lid, fitting grooves in the side, accompanies each cabinet, making it practically dust proof when put away for another season's use. See page 63 for full description and list of varieties.

THIS PRICE LIST CANCELS ALL PREVIOUS QUOTATIONS.

We are bound for quantities only so far as accepted in writing.

Burpee's Vegetable Seeds.

TEN POUNDS OR MORE WILL BE CHARGED AT 100-POUND RATES.

A Telegraphic Cipher (or Cable Code) is attached to each variety, by which orders can be wired at little expense,—using also our code for prices, weights, and measures as given on pages 2, 3, and 4. For example:

Darken Pelew Balcony would mean: Send immediately, by fast freight, forty bushels of BURPEE'S STRINGLESS GREEN-POD BEANS at catalogue price.

Dared Breda Cage would mean: Send immediately, by express, fifty pounds of best select JERSEY WAKEFIELD CABBAGE as per special quotation.

Darnel Amoy Lantern would mean: Send immediately, by mail, three pounds of seed of BIG BOSTON LETTUCE.

Telegrams should be addressed,

W. ATLEE BURPEE & CO., Philadelphia.

Our Cable Address is: BURPEE, Philadelphia.

Livingston's Snow White.....	<i>Choquette</i>	1 10	100 00
New PINK PLUME.....	<i>Chorus</i>	1 50	125 00

NEW GOLDEN SELF-BLANCHING CELERY.

This variety, first introduced in America by us in 1884, is decidedly better in quality than the *White Plume*. It is ready for use nearly as early, blanches as easily, and is larger in size as well as finer in quality. It is of dwarf compact habit, with thick, solid, heavily ribbed stalks which blanch easily to a clear waxen yellow. The stalks are crisp and solid, free from stringiness and of delicious flavor.

GIANT PASCAL CELERY.

Beware of so-called Cheap Onion Seed.

The Onion is universally grown in every section and is one of the most profitable market-garden crops, repaying many fold any extra care in preparing and fertilizing the ground and subsequent cultivation. No feature of this crop, however, is more important than the planting of a **strictly high-grade strain of seed**, as the proper preparation of the soil and cultivation of the crop involve considerable outlay. The profitable returns depend altogether on the sure ripening of the bulbs, and such a reliable strain of seed can be grown only from choice selected well-ripened bulbs. Our Onion Seed is grown for us under the most thorough and critical inspection, and we confidently claim it is the choicest that it is possible to produce. Cheap Onion Seed grown from badly formed or poorly ripened bulbs will produce after its kind. **A few dollars saved in purchase of Onion Seed for planting may result in loss of many hundreds.**

TRUE TABASCO PEPPER

The True "Tabasco." The seed now offered was saved specially for us in New Iberia Parish, Louisiana, by MR. E. McILHENNY, manufacturer of the original world-famous *Tabasco Sauce*. Mr. McIlhenny has never before supplied seed to any seedsman, but kindly granted our earnest request when we had the pleasure of inspecting his magnificent plant last summer. *See next page.*

“Proved by Test.” Unless you should order some variety that we do not catalogue and instruct that we get it for you (when we shall send it at your risk,—in its original package), you may be absolutely sure that you will receive from us only such stocks of strictly high-grade seeds as have been proved absolutely **“Best by Test.”**

Many seedsmen have much to say about tested seeds, but unfortunately with most dealers this applies only to blotter tests for vitality. Our tests for vitality are *soil* tests. While necessary that *seeds grow*, it is of prime importance that they shall be of choicest selected strains, such as can be relied upon to produce products **“true to type.”** This can be learned only by thorough field trials. No other seedsmen in America make so many or such complete trials as are conducted annually at our famous FORDHOOK FARMS.

Grass Seed has for years received special attention at our hands. Samples of all the leading varieties are annually tested at FORDHOOK FARMS. In this way we have become acquainted not only with the best varieties for use in mixtures, but have learned also from experience the most desirable for all purposes.

We offer one grade only, and that the best that can be obtained, and do not handle any of the so-called "chaff" grades.

Our mixtures are all made up from first-class heavy seed, and this fact should be borne in mind when comparing prices.

At Fordhook Farms we have both horses and cows to feed, and therefore know from experience as to what they thrive best on and how important it is to plant for full crops of hay. We know also how necessary it is for the planter to have seed that is as **clean as it can be made**. Kindly bear this fact in mind when comparing our prices with others. It would be well also to *compare samples* under the microscope before being led to purchase "cheap" (!) Grass or Clover Seed.

Lower Prices could easily be quoted were we not practical growers and testers of seeds ourselves.

Were we willing to take simply the "say so" of other growers in America and Europe without proving the stocks in greenhouses, frames, and open field trials, we should save thousands of dollars annually. In that case, however, we would never have built up and maintained,—in spite of all competition,—a business that is known to be **the largest direct mail-order seed trade in the world.**

At FORDHOOK FARMS we have not only the most extensive Trial Grounds in America, but also grow selected stocks of many of the choicest vegetables and flowers that can hardly be had of equal quality elsewhere.

Choice Strains of Tall Sweet Peas,—

Including all the desirable varieties—both new and old.

By hundreds of thorough trials made every year at our famous FORDHOOK FARMS we know SWEET PEAS and the merits of all the many novelties as introduced. Keeping Purity and High Quality, rather than low prices, our first aim, we have become recognized as

Headquarters for Sweet Peas in America.

Each is pure and true to name,—vastly superior to the “Cheap Seed” so largely grown without the proper care in the constant selection that is absolutely necessary to maintain first-class stocks.

OUNCES of Sweet Peas are **one-tenth** pound prices, **except** that no variety will be supplied at less than **four cents per ounce**. Varieties priced at 35 cts. or less per pound are charged at **ten cents per ¼ pound**. Varieties priced at 45 and 50 cts. per pound are charged at 15 cts. per ¼ pound, while those priced at 70 cts. per pound are charged at 20 cts. per ¼ pound.

☞ We refer to our Retail Catalogue for full descriptions of NOVELTIES not specially described herein, and should suggest that with the present widespread interest in Sweet Peas it will pay seedsmen generally to offer more of the **NEW SORTS**, as the margin of profit is greater than on standard varieties.

	Telegraph Code or Cipher.	Per lb.
* Admiration (Burpee's) . Delicate shade of rosy lavender,	<i>Admiration</i>	\$0 30
Adonis . Rose and carmine; small flowers,	<i>Jab</i>	18

DOUBLE SWEET PEAS. From most carefully selected stock seed, saved only from the best plants bearing double flowers, we offer the following varieties:

Apple Blossom, Butterfly, Duke of Clarence,	White, Waverly, Boreatton,	Captain of the Blues, Bride of Niagara,	Senator, Splendor.
---	----------------------------------	--	-----------------------

Each of the above **DOUBLE SWEET PEAS**, 30 cts. per lb.

Ten Mixed DOUBLE SWEET PEAS (Cable word—*Xerxes*), 25 cts. per lb.; \$22.50 per 100 lbs.

Burpee's "Latest Special" Improved Best New Mixed Sweet Peas for 1904.

This "brand" of the finest large-flowered Sweet Peas in Mixture is **absolutely unequaled**. Each year we strive to "surpass ourselves" in this special mixture. We are quite sure that, notwithstanding the claims of some competitors, *an equally high-grade mixture cannot be obtained elsewhere*. The seed, of course, is not grown in mixture at all. It is "blended" by ourselves of the largest-flowered, most beautiful named varieties,—each grown separately from the choicest selected strains. Besides all the best and "**only the best**" of the varieties introduced prior to last year, this NEW "BLEND" FOR 1904 contains a liberal proportion of all the *Eckford* and *Burpee* *Novelties* first offered by us last year, and other fine large-flowered *Novelties* never before included in any mixture.

Wholesale, \$1.00 per lb.; in lots of 10 lbs. or more at 90 cents per lb.

New Race of Burpee's Bush Sweet Peas.

The plants are erect, fifteen to eighteen inches high when in full flower, but branching freely so that the close bushes are frequently fifteen inches and more in diameter, composed of short erect branches with abundant light-green foliage. The flowers, while not so large, are of as fine form and beautiful coloring as the tall varieties. As the stems of flowers can be cut with some of the neat attractive foliage, they are most desirable for bunching in bouquets and for floral decorations.

BUSH SWEET PEAS.

Senator. A perfect reproduction of the tall variety,	Flag	60
48 Colors Mixed. Contains many new varieties,	Fuzzy	75

Burpee's Dwarf CUPID Sweet Peas.

A new and entirely distinct race of Sweet Peas, first introduced by us in 1895, differing as widely as possible from the usual tall vine-like growth, being of low very compact-spreading form. Plants are seldom more than six inches in height and form a dense mat of richest green foliage fifteen inches or more in diameter. The flowers are fully equal in size to those of the tall-growing varieties, but are placed closely together, generally three or four at the top of a stout stiff stem, seemingly poised just above the surface of the dark-green foliage. The stems branch freely with close joints, and are thickly set with dark-green leaves.

CUPID SWEET PEAS.

	Telegraph Code or Cipher.	Per lb.
Alice Eckford. Standard silvery white, shaded rose; wings white,	Habble	\$0 35
America. Bright blood-red stripings on silvery-white ground,	Habit	55

White. The original variety. (Per 100 lbs., \$30.00),	Honey	35
50 Cupids Mixed. Includes many varieties not yet listed. (10 lbs. @ 40 cts. per lb),	Hymn	45

FLOWER SEEDS.

ONE-QUARTER pound furnished at pound rates, and one-quarter ounce at ounce rates, where not less than sixty cents per ounce. Of the cheaper flower seeds, not less than one-half ounce will be supplied at ounce rates. *Not less than one ounce* will be supplied of varieties priced at 15 cts. or less per ounce.

These flower seeds are all of the finest strains of the best varieties, and are sure to give satisfaction. While many are grown by ourselves at **FORDHOOK FARMS** or by our private growers in America, all are tested thoroughly both for vitality and purity. Those that are imported are obtained only from the best growers in Europe, whose gardens we have repeatedly inspected. The whole makes a collection unexcelled in uniform excellence of quality and vastly superior to the commercial grades commonly sold. It is generally admitted that **we grow a larger area of Flower Seeds, and test all varieties more thoroughly on our own grounds, than do any other American seedsmen.**

Burpee's GEM COLLECTION of Annuals

"Encourage the Beautiful, for the Useful encourages itself."—GOSNELL.

Ten Packets Beautiful Flowers for 25 Cts.

**CARNATION
"MARGUERITE"**

COPYRIGHTED 1900 BY W. ATLEE BURPEE
EXQUISITE BALSAM.

25 Cents

buys all the ten packets of the choicest Flower Seeds enumerated on this page—and all liberal packets containing choicest fresh

Seeds of the Burpee Quality.

WHOLESALE. This and the other popular quick-selling 25-cent collections are supplied at \$1.80 per dozen.

For other collections see THE FARM ANNUAL FOR 1904.

BURPEE'S "SUNLIGHT" NASTURTIUM.—Natural Size Flower.

BURPEE'S SEEDS GROW! This well-known motto is equally true of our Flower Seeds as of Vegetable and Farm Seeds. The vitality of each variety is proved thoroughly before the seed is put up in packets.

For 25 Cts. we mail one packet each of all the following: **Little Gem SWEET ALYSSUM**, carpets the ground with a mass of white, grows only three inches high,—**Fordhook Favorites** among **ASTERS**, embracing many of the choicest types and all of the desirable colors,—**Burpee's Defiance BALSAMS**, in unequalled mixture, including the new *Exquisite*,—**Dwarf Marguerite CARNATIONS**, which are hardy and bloom in four months,—**Burpee's New Giant-flowered NASTURTIUMS**, in unequalled mixture, see natural size flower below,—**Royal Prize PANSIES**, both free-flowering and giant varieties,—**Largest-flowering PHLOX DRUMMONDII**, as grown by ourselves,—**Fordhook Fairy POPPIES**, most graceful double flowers, in many colors,—a large packet of **Burpee's New Grand Tall SWEET PEAS**, in surpassing mixture, as specially prepared for 1904, and a small packet of the most beautiful **New PLUMED CELOSIAS** we have ever grown. So charming is this gorgeous **NEW CELOSIA**, in seven superb colors, that, did space permit, we should devote half a page to illustration and description. *This novelty is likely to give such delight to all flower lovers as to be alone well worth the quarter paid for all ten packets!*

25 Cts.

buys all the Above.

Burpee's WHITE WONDER.

This is the Double-stemmed Many-flowered White Sweet Pea distributed at retail only as *New Nameless*, for advance trials the past season. It is now first offered to the trade and is pronounced **the most unique novelty in large-flowering Tall Sweet Peas yet produced!** Some idea of its remarkable character may be obtained from the illustration, which has been *engraved from a photograph*.

The flowers are *pure white*, uniformly of the largest size, and are borne *six to eight* and frequently as many as *ten to twelve large flowers* on a long stout stem. The stems are frequently double; that is, two stems seem to be united in growth throughout their entire length. The flowers are well placed near top of stem and generally all facing one way. The vines are most profuse in bloom, being of unusual vigor, as is shown from the fact that about half the flowers have double standards.

Wholesale, \$2.50 per lb.; in lots of 10 lbs. or more at \$2.25 per lb.

Burpee's Earliest

"**SUNBEAMS**" is a companion to Burpee's "Earliest of All" — Re-selected—"Extreme-Early." *A beautiful rich primrose color. Now first introduced, it is described on next page.*

BURPEE'S
WHITE WONDER.—
*Engraved from a
Photograph.*

Burpee's "Earliest of All" Sweet Pea.

Re-selected,—**"Extreme-Early."**

Mr. Gould, the originator of BURPEE'S EARLIEST OF ALL, has continued to develop the earliness and dwarf habit, until in this RE-SELECTED "EXTREME-EARLY" we have a strain as much earlier than *Earliest of All* as that variety is ahead of *Extra Early Blanche Ferry*, which again is earlier than the original *Blanche Ferry*. Thus by constant and intelligent selection this strain has been developed to come into full flower when only twelve inches in height and three to four weeks in advance of the first parent variety.

In our Trial Grounds, where the standard varieties of Sweet Peas all came into flower quite early, this "EXTREME-EARLY" was in bloom on June 3d, the regular strain of *Earliest of All* on June 9th, and *Extra Early Blanche Ferry* on June 17th. Under less favorable conditions the difference in the period of flowering is even more marked. For winter flowering in the greenhouse it is the **very best** of the popular pink-and-white type of flowers.

Wholesale, per lb. 85 cts.; in lots of 10 lbs. or more, per lb. 75 cts.

Natural Size.
Engraved from a Photograph of
**BURPEE'S
EARLIEST OF ALL.**

New Extra-Early Sweet Pea,— Burpee's Earliest SUNBEAMS.

The Most Important Novelty in Sweet Peas.

(CABLE WORD,—*Sunbeams.*)

Burpee's Sunbeams might be described as a *primrose Mont Blanc!* This one statement will make it eagerly sought for by commercial florists, as with the famous *Burpee's Earliest of All* it now gives a third color in this distinct class of extreme-early Sweet Peas for forcing. It is equally desirable also for early spring flowering in the open ground, particularly in sections where the later sorts are apt to be cut off by extreme summer heat.

The flowers are of good size, fine substance, and are well formed. They are of a *rich primrose color*, and generally borne three on a stem; stems strong and of good length for cutting. The plant is comparatively dwarf growing,—exactly of same habit as *Mont Blanc*, of which it is a duplicate except in color. This new color, coming into market at the same time as the first pure white and "pink and white" Sweet Peas (either grown under glass or in the open ground), will find a ready sale and make money for florists who are so fortunate as to offer first *these beautiful primrose Sweet Peas*. It will prove, of course, equally as popular in private gardens, to furnish a third color,—*at least two weeks before the general list of Sweet Peas come into bloom.*

Sold only in sealed packets,—but if desired our firm name and address will be omitted from the packets and on orders of 500 pkts. or more any other name printed thereon. **Per pkt. 25 cts.; 5 pkts. for \$1.00,**—each packet containing *forty seeds*. Wholesale, **\$1.50 per dozen pkts.; \$10.00 per 100 pkts.;** in lots of 500 pkts., at **\$8.00 per 100 pkts.**

Half-size pkts., 15 cts. each: these contain *twenty seeds* each and are supplied to the trade at **90 cts. per dozen; \$6.00 per 100 pkts.;** in lots of 500 pkts., at **\$5.00 per 100 pkts.**

You should Catalogue SPARKS' EARLIANA Tomato,— Most Famous of All "Extreme-Early" Tomatoes.

It was developed in Southern New Jersey, where the greatest competition exists among growers to be first in the market. MR. GEORGE C. SPARKS, of Salem Co., has been most successful, and the seed we offer is

from selected stock of his *choicest extreme-early free-fruited strain*. In the accompanying illustration our artist has attempted to show its *wonderfully prolific character* and habit of growth, as far as possible, in the small space.

The plants are quite hardy with rather slender open branches and moderate growth well set with fruits, nearly all of which ripen extremely early in the season. The tomatoes are deep scarlet and grow closely in clusters of five to eight, all of medium size, averaging two and a half inches in diameter; they are smooth and solid, quite thick through and free from rough ribs or cracks. The flesh is deep red, with solid center and

small seed cells, slightly acid flavor. Wholesale, **per lb. \$5.00;** 10 lbs. at **\$4.75 per lb.**

WESTERN GROWN SEED,—per lb. \$4.00; 10 lbs. at \$3.50 per lb.

Several of the Best New NASTURTIIUMS.

Burpee's "CAPRICE." "CAPRICE" bears most profusely flowers of *extra large size* and in a wonderful variety of colors and markings. The petals are heavily marbled or overlaid with deep velvety tints,—showing many unique combinations. It is appropriately named "CAPRICE" from its character of frequently bearing flowers of diverse colors upon a single plant. In this respect it is similar to the popular *French Chameleon Nasturtiums*, but the flowers are *very much larger in size*. The large foliage is generally of a deep dark green, and the plants are always of strong and vigorous growth. While a tall or climbing variety, the new "CAPRICE" is *equally beautiful grown simply trailing upon the ground*. Wholesale, **per lb. 80 cts.**; 10 lbs. or more at **70 cts. per lb.**

Burpee's "BUTTERFLY." The flowers are very large, measuring three inches across, and the petals have a similar *crape-like* texture to those of *Sunlight*. The color is a light lemon-yellow, showily marked on the three broad lower petals with a blotch of rich *terra cotta red*. The petals are deeply fringed at the edges of the throat. The two upper petals are beautifully marked in a manner strongly resembling the eye of a peacock's feather in shades of bright red, with fine dark lines radiating through them from the throat. The tall plants are of handsome light-green foliage and wonderfully profuse in flowering. Wholesale, **90 cts. per lb.**

COPYRIGHTED 1900 BY W. ATLEE BURPEE & CO. BUTTERFLY.

Tall Nasturtium,—“JUPITER.”

This variety from California is of strong running growth and bears large rich golden-yellow flowers of the finest form. The petals are of a thick silky texture, crumpled like *crêpe*, and where the three lower petals join the throat they are surmounted by a heavy fringe of fine golden hairs. While we have had a sample in our Trial Grounds at FORDHOOK FARMS the past two seasons and consider it one of the finest of the new large-flowering type, we were unable to discover any marked distinction between the *New Jupiter* and *Burpee's Sunlight*, but offer seed grown from the originator's stock. **Per lb. 70 cts.**; 10 lbs. at **60 cts. per lb.**

Nasturtium,—Burpee's "Twilight."

Plants of strong running growth and great freedom of bloom. The flowers are *extra large* and of full expanded form. They are most pleasing in color, having a faint salmon or buff tint heavily suffused with a rosy salmon. The throat is large and open; the three upper petals are beautifully veined with crimson. The colored plate shown in the *FARM ANNUAL* for 1903 gives but a faint idea of its distinct beauty. This grand novelty comes quite true from seed and is of the same improved large-flowered type as our popular *Sunlight*. **Per lb. 85 cts.**; 10 lbs. or more at **75 cts. per lb.**

Nasturtium,—“Midnight.”

Plants of extremely deep dark green foliage, and bear an abundance of bloom of *wonderfully rich coloring*,—the darkest of all nasturtiums. The flowers are a deep brownish red or crimson, the soft velvety texture of the petals being crumpled or partially folded, giving the effect of even darker shadings. The two upper petals are finely pencilled with crimson and there is a small blotch of crimson at the throat. The calyx and spur are deep orange-yellow, contrasting finely. **Per lb. 75 cts.**

New Tall Nasturtium,—“Croesus.”

Of strong vigorous growth, with heavy foliage of a medium green, the plants bear magnificent large flowers in rich profusion. It is equally beautiful either as a climbing vine or grown in a continuous row simply trailing upon the ground. The ground color ranges from light primrose and lemon-yellow to deep orange. The two upper petals are blotched with velvety crimson, and the throat portion is lined with the same rich shade; the three lower petals are heavily fringed or "toothed" at the throat and each marked with small blotches of bright brown-red. Other flowers in the deep yellow and rich orange shades have the same markings in bright carmine or in salmon-red, and in these richer hued flowers the colored markings are frequently suffused over nearly the entire surface of the petals. The originator pronounces it "*the finest thing we have ever had in Nasturtiums*," and says that while first similar to our *Butterfly*, later the flowers become suffused like *Twilight*, and he has frequently seen not only these two colors, but also flowers of an almost solid deeper coloring upon the same plant. **Per lb. \$1.00.**

We Grow NASTURTIIUMS in Large Areas,

and can quote special prices on all other named varieties and also on all mixtures. You are requested to send us a list of varieties and quantities required,—for pricing.

New Cabbage,—Burpee's "EARLY STONEHEAD."

Early Stonehead

has made already a host of friends. The large solid head is of very distinct growth and appearance. It is *exceptionally robust and hardy*, with ample spreading foliage,—well adapted both for an early summer crop and from later planting for fall and winter. It is also specially adapted to fall planting in the Southern States for an early spring market; the heads, each "*solid as a stone*," being particularly valuable for shipping to the northern markets.

In season it is slightly later than *Burpee's Allhead Early*, but the heads grow to a larger size and will stand quite a long time before bursting. The outer leaves are large and spreading, so that the plants should be set two feet apart in the row. The plants are short-stemmed, the saucer-like circle of large grayish leaves resting on the soil.

The heads are quite large, averaging ten inches and more in diameter, broad but distinctly rounded at the top. The leaves are very tightly folded, ensuring heads uniformly of the *greatest possible solidity*. The leaves composing the heads, while of heavier substance than in *Allhead*, are equally as well blanched and of crisp sweet flavor. Its great solidity makes it most desirable for slicing for slaw, sourkroust, etc.

BURPEE'S EARLY STONEHEAD CABBAGE.
From Photograph taken at Fordhook.

Wholesale, \$1.90 per lb.; 10 lbs. or more at \$1.75 per lb.

BURPEE'S NEW "STONEHEAD" WINTER CABBAGE,—from a Photograph taken at Fordhook.

Burpee's "LATE STONEHEAD" Cabbage.

A Superb Sure-Heading Winter Cabbage of Distinct Type.

The plants are of strong sturdy growth; the head is surrounded by a spreading circle of large, rounded, blue-green leaves. These leaves *serve as a saucer* to catch light rains or heavy dews and deliver them around the stalk to the roots. The stem is short, the spreading leaves resting upon the soil, and the large solid heads are formed close to the ground. The heads are broad,—"*solid as a stone*,"—of distinctly rounded form. The leaves composing the head are tightly folded, beautifully blanched, and of mild sweet flavor. The superb hard heads are excellent for making slaw or sourkroust. From their *great solidity*, they keep well when stored for winter use.

Wholesale, \$1.60 per lb.; 10 lbs. or more at \$1.50 per lb.

BURPEE'S BOX OF FLOWER SEEDS

THIS box of **CHOICE FLOWER SEEDS**, put up in a neat and attractive style, contains the same **fine quality of fresh seed** as supplied to our own critical retail trade. Dealers having had frequent complaints from the flower seeds usually sold, will now find this a pleasing and profitable department of their business. The selection embraces the most popular and quick-selling varieties.

EACH BOX CONTAINS

Five 5-Cent Packets each of

ALYSSUM,—Sweet.	NASTURTIUM,—Tom Thumb, Burpee's "Gorgeous" Mixture of New Varieties.
ASTER,—Choice Mixed.	NASTURTIUM,—Fordhook Favorite Climbing, Mixed.
" Finest Mixed Comet.	NASTURTIUM,—Hybrids of Madame Gunter.
BALSAM,—Burpee's Superb Camellia-Flowered, Mixed.	PANSY,—Fordhook Bedding, Mixed.
CALENDULA,—Double, Mixed.	" Imperial German.
CALLIOPSIS,—Fine Mixed.	PETUNIA HYBRIDA,—Mixed.
CANDYTUFT,—Mixed.	PHLOX DRUMMONDII,—Large Flowering, Mixed.
CARNATION,—Marguerite, Mixed Colors.	" " Starred and Fringed.
CENTAUREA,—New Double, Mixed.	POPPY,—Fordhook Fairies, Fine Mixed.
CHRYSANTHEMUM,—Annual Varieties, Mixed.	PORTULACA,—Finest Single, Mixed.
COCKSCOMB,—Dwarf, Mixed.	SALVIA SPLENDENS,—Scarlet Sage.
COSMOS,—All Colors Mixed.	SCABIOSA (Mourning Bride)—Dwarf Double, Mixed.
CYPRESS VINE,—Mixed.	STOCKS,—Dwarf German, Mixed.
DIANTHUS,—Japan and China Pinks, Mixed.	SWEET PEAS,—Eckford's New, Mixed.
GAILLARDIA,—New Double, Mixed.	" " Burpee's American Seedlings.
LARKSPUR,—Double Rocket, Mixed.	" " Eckford's "Up-to-Date."
MARIGOLD,—French Double, Dwarf, Mixed.	SUNFLOWER,—Many-Flowered, Double.
MARVEL-OF-PERU (Four o'clock),—all Colors.	VERBENA HYBRIDA,—Extra Fine, Mixed.
MIGNONETTE,—Mixed.	ZINNIA ELEGANS,—Giant Mammoth, Mixed.
MORNING GLORY,—Tall, Mixed.	
" " Imperial Japanese.	

In all, 200 Packets of Flower Seeds.

40 Varieties, five packets of each, making a total of 200 packets, which, if sold at 5 cts. per packet, amount to a **total retail value of \$10.00**.

Wholesale Price to the Trade, \$4.00 for the Box complete.

It can be sent by mail for 20 cts. additional.

ADDITIONAL PACKETS

of any of the varieties mentioned above, to fill up the box, will be supplied at the uniform price of

\$2.50 per 100 packets, or

\$2.00 per 100 packets, when 500 packets or more are ordered at one time.

W. ATLEE BURPEE & CO., Philadelphia, Pa.

BURPEE'S NEW CABINET

OF

VEGETABLE SEEDS.

This is a handsome cabinet, beautifully finished in hardwood, that will be an ornament to any store. It stands 40 inches high and is 30 inches broad, divided into 48 compartments. The front of each packet of seed is shown, while the packets are held in place by a neat metal bar across each compartment. Cost of cabinet alone is **\$3.00**, but we will supply the **cabinet complete**, filled with **1000 packets** of seed as enumerated below, for **\$20.00**.

The sale of these (at 5 cts. per packet) will allow a clear **profit of \$30.00**, and give the cabinet **Free**.

Burpee's New Vegetable Seed Cabinet contains 1000 Packets as per List given below.

6 Asparagus,—Barr's Mammoth.	12 Onion,—Extra Early Red.
12 Beet,—Crosby's Egyptian.	18 " Large Red Wethersfield.
18 " Burpee's Extra Early Turnip.	12 " Southport Red Globe.
24 " Burpee's Improved Blood Turnip.	6 " White Portugal, or Silverskin.
6 Cabbage,—Early Jersey Wakefield.	16 " Prize-Taker.
18 " Early Winnigstadt.	18 " Australian Brown.
12 " Henderson's Early Summer.	8 " Earliest White Queen.
18 " Burpee's Surehead.	8 " Burpee's Mammoth Silver King.
18 " Danish Ballhead.	12 Parsley,—Extra Curled Dwarf, or Emerald.
6 " Perfection Drumhead Savoy.	18 Parsnip,—Improved Guernsey.
6 " Hard-Heading Red.	12 Pepper,—Burpee's Ruby King.
12 Carrot,—Oxheart.	6 " Long Red Cayenne.
24 " Danvers.	12 Pumpkin,—Small Sugar.
12 Celery,—Giant Pascal.	6 " Large Cheese.
12 " Golden Self-Blanching.	12 Radish,—New Earliest White.
6 " White Plume.	18 " Burpee's Earliest Scarlet Button.
24 Cucumber,—Arlington White Spine.	12 " Early Long Scarlet Short Top.
12 " Fordhook Pickling.	12 " Long Cardinal.
24 " London Long Green.	12 " Long White Vienna.
12 Egg Plant,—New York Improved Large Purple.	12 " White Chinese Winter.
6 Endive,—Green Curled.	24 Spinach,—New Victoria.
6 Kohl-Rabi,—Early White Vienna.	12 Squash,—Golden Summer Crookneck.
6 Leek,—American Flag.	12 " Early White Bush.
24 Lettuce,—Iceberg.	12 " Hubbard.
12 " Tom Thumb.	12 Tomato,—Acme.
18 " California Cream-Butter.	6 " Stone.
24 " Deacon.	12 " Livingston's Beauty.
36 Melon, Musk,—Paul Rose.	6 " Burpee's "Combination."
54 " " Burpee's Netted Gem (Rocky Ford).	12 " Matchless.
24 " Water,—Kleckley Sweets.	12 Turnip,—Purple-Top Milan.
18 " " Fordhook Early.	18 " Early White Flat Dutch.
12 " " McIver's Sugar.	12 " Red-Top White Globe.
12 Onion,—Best Yellow Globe Danvers.	18 " Purple-Top Strap-Leaved.
12 " Yellow Dutch, or Large Yellow Strasbourg.	30 Ruta Baga,—Improved Purple-Top Yellow.
	8 Herb,—Sage.
	6 " Sweet Marjoram.

ADDITIONAL PACKETS

of any of the varieties mentioned above, to fill up the cabinet, will be supplied at the uniform price of

\$2.50 per 100 packets, or

\$2.00 per 100 packets, when 500 packets or more are ordered at one time.

IN OUR REGULAR STANDARD PACKETS

are Supplied to Dealers at

ONE-HALF RETAIL PRICES

and in orders of 500 papers or more at 60 PER CENT. discount from retail prices. **SPECIAL PRICES WILL BE GIVEN ON LARGE ORDERS FOR SEEDS IN PAPERS.**

Our Garden Seeds are put up in a very neat and attractive style. **FULL AND COMPLETE DIRECTIONS FOR CULTURE**, together with an illustration and description, **PRINTED ON EACH PACKET** of nearly all the leading varieties. We have been at considerable expense to have correct illustrations and photographs taken for this purpose, and feel sure that our customers will appreciate it when they receive the seeds.

FLOWER SEEDS IN PAPERS supplied at one-half retail prices, and in lots of 500 papers at 60 per cent. discount. For description and Retail Prices, see **Burpee's Farm Annual for 1904**, a copy of which may be had upon application.

THE STYLE OF PAPERING OUR FLOWER SEEDS.

At an expense of some hundreds of dollars we have had illustrations made of nearly every variety of Flowers and have prepared electrotypes, giving also directions for culture. Thus, with few exceptions, every Packet of Flower Seeds sold by us bears an illustration of the variety and concise directions for culture. We are sure our customers will appreciate the labor involved in this work when they receive the seed in the neat new style which, to our taste, is vastly preferable to the gaudy chromo packets so generally used.

W. ATLEE BURPEE & CO.,

Seed Growers,

PHILADELPHIA, PA.

BURPEE'S NEW "CHINESE GIANT" Red Pepper.

Double the Size of Ruby King; this is the largest and finest mild red pepper.

Truckers planting for market will find BURPEE'S "CHINESE GIANT" the most profitable variety they ever handled. Not only is it early in ripening and immensely productive for so large a pepper, but its enormous size will cause it to sell most readily. The plants are vigorous in growth, but of stocky habit, seldom more than two feet in height. They are well blanched and thickly set with enormous fruits, which appear to hang in clusters,—so many being set on the comparatively small plants. Frequently half a dozen fruits will touch each other, as if in a single bunch; the strong growth of the plants and abundant foliage enable them to mature the large number of fruits nearly as early as the popular *Burpee's Ruby King*. The monstrous fruits are of thick blocky form and of most brilliant glossy scarlet. They grow four to five inches broad at the top and are of equal length, divided into four or more large ridges; when ripe they are indented at the blossom end. The first fruits set in a cluster of three to five at base of the plant, and are generally longer than those setting later on the upper branches, although the latter fruits are equally as broad.

All are uniformly of most "enormous" size. The flesh is extremely mild,—as sweet as an apple,—and unusually thick; it makes an excellent salad sliced and served like tomatoes.

Per lb. \$5.00; in lots of 10 lbs. or more at \$4.75 per lb.

BURPEE'S MAMMOTH
"CHINESE GIANT" PEPPER.
Hardly one-third Natural
Size,—from a
Photograph.

Burpee's NETTED GEM Melon.

This is the true "ROCKY FORD,"—most famous of all Musk Melons.

The most popular and finest green-fleshed Musk Melon,—"BURPEE'S NETTED GEM,"—originally introduced by us twenty-three years ago (1881), is now widely known under the name of *Rocky Ford*, as it reaches such great perfection in the favorable soil and climate of Rocky Ford, Colorado. The fine fruits from this favored section are shipped to all the large cities in the United States, where they command the highest market price. Some seedsmen offer special strains of NETTED GEM as "*the New Rocky Ford*" grown in the Rocky Ford district, but it still remains a fact that large growers of this fine melon in Colorado, Arkansas, Georgia, and other States send to us each year for our selected stock of the original NETTED GEM in preference to saving their own seed, as they know that our seed, saved from selected fruits which are grown for seed only, will give the most uniform and most densely netted fruits of finest quality.

We carefully select stock to maintain the strain at the highest possible grade, and our crops are inspected personally each year before the seed is saved; this, in connection with our extensive system of trials, insures to planters of our seed the very finest strain of this melon that can be produced. The vines are of strong healthy growth, comparatively short, and branch freely, setting a large number of fruits close to the hill. The melons are even and regular in size and form, nearly round or slightly oval. They are always finely netted and the skin is of a light golden hue when fully ripened. The flesh is light green in color, melting and luscious in flavor, and ripens close to the skin, so that there is but a very thin rind in a well-grown fruit.

To be sure of Burpee's selected seed you must order direct from us; or if you order from local merchants, see that each package bears our registered Trade Mark Green Seal if done up in paper bags; if in larger quantities, that each bag is sealed with our leaden seal.

Per lb. 60 cts.; in lots of 10 pounds, 55 cts. per lb.

Our extra selected stock is strictly A No. 1,—the best it is possible to produce.

Sample Reports on CHALK'S EARLY JEWEL Tomato.

EARLY JEWEL,—“Best of All!”

J. J. PRICE, Charlotte, N. C., September 29, 1903, writes:—I planted CHALK'S EARLY JEWEL in comparison with *Sparks' Earliana*. I shall plant *Early Jewel* exclusively next year. It is very prolific (gathered 87 from one plant) and of a stout, stocky growth. Large round deep, smooth fruit, of scarlet color and delicious flavor. It ripens well to the core; small seed cavity; few seed. I consider the EARLY JEWEL *best of all*.

More Prolific, Larger, and Smoother.

MRS. C. E. CHAPMAN, Freeville, N. Y., September 21, 1903, writes:—I have tested side by side CHALK'S EARLY JEWEL and *Sparks' Earliana* and found that in time of ripening there is very little difference. The *Earliana* is uniform in size, but CHALK'S EARLY JEWEL is *more prolific, larger, and smoother*, bearing its fruit in profusion to the last; of fine quality and comparing well with the later varieties. For an all-round early tomato I think the CHALK'S EARLY JEWEL *will be hard to beat*.

Earlier than Earliana,—in Alabama!

GEO. W. ALLEN, Cornelia, Ala., September 24, 1903, writes:—CHALK'S EARLY JEWEL is ten days earlier and more prolific than *Sparks' Earliana*; larger fruit, better flavored, more even in ripening, and longer in bearing. Fruits equally as large as *Matchless*. I planted seed in open ground May 1st. First ripe tomatoes July 8th. It is the *Ne plus ultra* among tomatoes.

Best in Thirty Years' Experience.

CHAS. G. ADDISON, Springfield, Md., September 20, 1903, writes:—CHALK'S EARLY JEWEL compared with *Sparks' Earliana* Tomato, September, 1903. (1) Both are *extreme extra early*, large, solid, and all season as well as early. (2) Cannot say which is earlier, as both ripen about same time. (3) Quality of both excellent; fine shape, attractive color, solid texture, long keeper, and first-class shippers. (4) While *Earliana* bears more fruit to the vine in point of numbers, EARLY JEWEL out-measures them fully 20 per cent., as there are many small *Earlianas* while the *Jewels* are *remarkably uniform*.—there being scarcely any small ones, nearly all being large, smooth, and solid. (5) While not wishing to detract one iota from the merits of *Earliana*, I must say that my trial convinces me that EARLY JEWEL is the *better tomato*.—the finest and most reliable and profitable early tomato I ever grew in my thirty years' experience at gardening.

“An Ideal Tomato for Every Purpose.”

GEORGE W. TRIPLETT, Alexandria, Va., September 16, 1903, writes:—I have tested fairly, side by side, on heavy land and light sandy soil, *Sparks' Earliana* and CHALK'S EARLY JEWEL, and am most enthusiastic in praise of *Chalk's Jewel*, which is *simply perfection in every respect*. The plants made a most vigorous luxuriant growth, and now loaded with handsome fruit,—*many specimens weighing nearly a pound*. They are certainly unsurpassed for *hardiness, extreme earliness, beauty of form, and color*. They are indeed an ideal tomato for every purpose.

Earlier and More Productive,—in Canada.

CHESTER WIEDERICK, Nanticoke, Ont., Canada, September 24, 1903, writes:—Having tested CHALK'S EARLY JEWEL with *Sparks' Earliana* under identical conditions, consider *Chalk's Early Jewel* by far the *superior*. With me it has proved a healthier and harder grower, is *far more productive* and ripened the crop earlier. Its fruits proved larger, smoother, fewer seeds, and ripened evenly to the stem. I had two specimens of *Chalk's Early Jewel* that measured four and four and a half inches in diameter respectively. I consider it the *finest tomato I ever grew*.

An Experience Similar to Our Own!

J. M. LYON, West Salamanca, N. Y., October 19, 1903, writes:—I grew CHALK'S EARLY JEWEL side of *Sparks' Earliana* on rich sandy loam soil. The *Earliana* blossomed, also grew fruit about a week first, but a little later the *Jewel* was yielding four ripe fruits to one of *Sparks' Earliana*, all of one size, about three inches across, of nearly round, magnificent, perfect-shaped, thick-meated, fine-flavored, solid tomatoes, yielding enormously; *Sparks' Earliana* producing less than half of flatter-meated fruits. THE JEWEL is the *Ne plus ultra* in tomato excellence.

“Chalk's Jewel Cannot Be Excelled.”

STEPHEN R. WEAVER, Sacket Harbor, N. Y., September 21, 1903, writes:—After testing CHALK'S EARLY JEWEL tomato with *Sparks' Earliana*, each with the same care, on light sandy soil, I wish to report that *Chalk's Early Jewel* will surpass the *Earliana* or, in fact, any tomato yet produced. My plants are all compact in growth, are in full fruit, bearing from sixty to seventy fine large scarlet tomatoes, bearing very few seed, and ripen *right to the stem*, without any cracks or green core. I exhibited a peck of CHALK'S EARLY JEWEL tomato at the Jefferson County Fair, at Watertown, N. Y., this year. It won *first prize*. Another gentleman *won second prize with the same variety*. This surely proves that they were well merited. For hardiness, extreme earliness, fine sweet flavor, and solid thick flesh, this tomato cannot be excelled.

In Iowa,—“It Beats Them All!”

ALFRED APPEL, Shellrock, Iowa, October 6, 1903, writes:—I have tried nearly all the earlies and am now ready to report on CHALK'S EARLY JEWEL in comparison with *Sparks' Earliana*. For me there is really no comparison. CHALK'S EARLY JEWEL *ripens more fruit early, of better color, finer quality, more solid, more productive, larger and more prize with the size of fruit*. Plants of sturdier growth. It is remarkable in earliness, productiveness, uniformity of size, solidity, and color of flesh and market value. *It beats them all*.

In Vermont,—It is “Without a Peer!”

A. R. WAKEMAN, Barton, Vt., October 7, 1903, writes:—CHALK'S EARLY JEWEL was rightly named, it is indeed a “jewel,” for it stands *without a peer* among all the large-sized, solid, fine-flavored, heavy bearing, first-early tomatoes. Never before has a tomato appeared that combined *all the good qualities with extra earliness*. The bright scarlet fruit is produced in *large clusters* that nearly cover the plant; the crop ripens very early and evenly. The fruits average three or three and a half inches in diameter, and are *ball-like in form*, smooth and free from ribs or cracks, and are *extra solid and meaty*, with no green core and few seeds, and of mild-sweet flavor. In comparison with *Earliana* it is much more satisfactory, more hardy, and *fully as early*.

Earlier than Earliana,—in Kansas.

FRANK SCHEINKVENIG, Broughton, Kansas, October 6, 1903, writes:—Sowed and transplanted side by side at the same time, CHALK'S EARLY JEWEL had ripe tomatoes one week before *Sparks' Earliana* and sold for 12 cents per pound. We frequently gathered ten and sixteen ripe tomatoes—some weighing fourteen ounces—from one vine. And even now (October 6th), with the vines of *Sparks' Earliana* all dried up, CHALK'S EARLY JEWEL is still fruiting. It is a *Jewel indeed*.—not only an early jewel but also a late jewel.

Earliana the Earlier in Minnesota.

C. H. SMITH, Faribault, Minn., October 3, 1903, writes:—*Earliana* commenced to ripen July 27th; JEWEL commenced to ripen August 4th. Shall plant both again next year. *Earliana* for first early and JEWEL for second early or main crop, as it is *finest shape I ever saw*.

Jewel the Earlier in Illinois.

W. H. BYRAM, Galesburg, Ill., October 6, 1903, writes:—CHALK'S EARLY JEWEL with me was eight days earlier than *Sparks' Earliana*, a plant yielding *twenty to twenty-five* tomatoes at a picking, two and a half to three inches in diameter. They are of a beautiful scarlet, *smooth as an apple*, pretty as a peach, without spot or blemish. There is no sour or acid taste, just a pleasant tart flavor, *the best I ever ate*.

“An Ideal Early Tomato!”

WM. M. KLING, Sharon Springs, N. Y., October 3, 1903, writes:—CHALK'S EARLY JEWEL is more robust and vigorous in vine, and sets fruit more freely in the most unfavorable weather. The fruits are smoother, heavier, and solid, ripen equally as early, but come on faster, hold their size far better, and are more attractive in appearance. And in conclusion will say that in productivity and earliness of ripening CHALK'S EARLY JEWEL is fully equal to *Sparks' Earliana*. In fact, it is an *ideal early tomato* and especially for cold wet seasons or heavy soils.

Other Letters are Quoted in The Farm Annual.
